TIPS FOR ADDING VEGGIES AND FRUITS TO MEALS AND SNACKS

✓ Make it easy to reach for a veggie. Keep cut up raw veggies, like carrots, broccoli, snap peas, or cauliflower on hand.
✓ At mealtime put out a dish of cut up raw veggies or fruits on the table.
✓ Berries and peaches make cereal and yogurt more fun and delicious!
✓ At lunchtime add a salad to your meal!
✓ Keep a fruit bowl. Add fresh fruit to any bowl. Keep it out on your counter!
✓ Have a Make Your Own Salad Night! Offer chopped veggies, cooked chicken or beans, shredded cheese, and add something new, like chopped apples.
✓ Looking for something quick as a side dish? Make a fruit salad. Stir in a spoonful of frozen orange juice concentrate for extra flavor.
✓ Summer fruits getting ripe all at the same time? Make a smoothie, or slice and cook in a little water and serve as a topping for pancakes, or make jam! Look for easy jam recipes on your favorite recipe web site.

• Store most veggies in your fridge!
• Keep vegetables like onions and potatoes in a cool, dark cupboard or pantry. Not in the fridge! Do not store onions and potatoes together.
• Keep tomatoes and unripe fruits at room temperature, usually on a counter or table.
• For longer storage, consider freezing or canning produce. To learn more, search: Seasonal Tips for Food Storage.
